SUMMARY

Dedicated Embedded Engineer with extensive experience in developing and implementing embedded systems, focusing on PCB design and microcontroller integration. Achieved high reliability and quality outcomes by aligning firmware development with rigorous testing protocols, enhancing project adherence to industry standards. Seeking a Hardware Engineer role at AIIR Products to leverage expertise in communication protocols and embedded solutions to drive innovation and project success.

EXPERIENCE

Embedded Engineer

SUN BIO IT SOLUTIONS PVT LTD

2022-PRESENT, Bengaluru

- Developed and implemented embedded systems for diverse projects, collaborating with cross-functional teams, designing and testing software and hardware, and troubleshooting issues to ensure reliability and high-quality outcomes.
 - Electronics and Communication Engineering | Bachelor of Engineering.
 - Integrated microcontroller-based solutions into automotive and industrial applications, aligning firmware development with rigorous testing protocols to meet project requirements and industry standards.
-

EDUCATION

Electronics and Communication Engineering

Bachelor of Engineering • RVS COLLEGE OF ENGINEERING AND TECHNOLOGY • Dindigul, Tamilnadu

• 06/2018- 06/2022

SKILLS

Arduino, C++, Microcontroller Programming

PCB Design

RTOS

I2C/SPI/UART Protocols, Hardware Design, Analog & Digital Circuit Design

Debugging, Problem-solving
